ALTERING THE DNA OF **α**LPHA TEACHERS'

shaping the future generations

CHITKARA
UNIVERSITY
COLLEGE OF EDUCATION

OUR EDUCATION PROGRAMS ARE INNOVATIVE AND COMPREHENSIVE.

Altering the DNA of an α Teacher was envisioned to meet the growing concern that teacher education program has remained unchanged in terms of substance, experiences offered and modalities adopted. It is a response to the need for well-prepared teachers in terms of 'quality', which is the essence of the teacher education program.

The entire structure of the Teacher Education Program has been revamped and redesigned in order to alter the DNA of existing teachers so that they can cater to the diverse needs of the 21st Century learners, **who have higher levels of digital literacy than their parents or teachers, and demand the freedom to show their wild creativity.** The 21st Century learners also termed as Generation-Z and α Learners (born after 1995 needs to be catered to differently).

In order to meet the varying interests of the Generation-Z and α learners the concept of α TEACHERS' was envisioned, who would be trained to build an effective learning environment for the students and require the following skills to facilitate the above mentioned interests:

- Technical Skills
- Conceptual Skills
- Interpersonal Skills

The envisioned α Teachers are being trained to meet the needs of the future generations by following a cutting-edge pedagogy in the field of Education, like engaging & exposing the α Teachers to Google Classrooms, Webinars, Student Exchange Programs, etc. along with facilitating rigorous internship in the Associate Schools. Workshops are also organised to keep them updated with the latest developments in the field of education. Regular field visits are also organised keeping in mind the close connection between school and the society. We believe, the evolved α Teachers would henceforth shape the future generation by taking the learners to the zenith of learning.

The Teacher Education programs which are divided into semesters, provide intensive field engagement of the students with our learning modules. The training is provided to the prospective teachers in close collaboration with the schools during which they receive coaching and mentorship from Program Curators of Chitkara College of Education. The hands-on training is supplemented with expert talks by professionals from across the country so that the students enter the teaching profession with skills and dispositions to help them become successful teachers while receiving mentorship and training from the program curators.
